RFQ- 04- 2026 Dated August 6,2026 Addendum # 1 September 3, 2026

We have had some questions and some internal discussion that we want to bring to your attention.

1. The Town would like this RFQ broken up into two sections and cost break down the new water main on both sides of the river including all connection as one. The river crossing as another.
2. Provide a cost for both a Class D and Class B estimate.
3. Alternative methods for the river crossing will be considered, such as a pipe bridge, pedestrian bridge with the pipe suspended below or under ground pipe.
4. The closing will be extended by two weeks to September 24,2026. The proposals may be submitted in person or by courier in a sealed envelop or emailed only to: admin@lakecowichan.ca
5. No geotechnical reports or investigation work has been completed for this project.
6. No environmental studies have been completed.
7. No topographical surveys have been completed.
8. We will provide the most current water model and suggested route if requested other routes may be considered.
9. The Town will provide the most current mapping and locations of existing infrastructure.
