

I'm running for Re-Election as Councillor for Town Council

I was born and raised in Lake Cowichan, and my husband and I have raised our family in Lake Cowichan.

Local Government has many challenges and needs a strong voice at the table. I'm a strong team player who works well with council members and staff.

Local Governments have financial pressure daily, and grants aren't readily offered thru Federal & Provincial Governments these days. Our country is under a lot of pressure so fiscal responsibility is a high priority more than ever. The next four years the highest priority is completing our sewer lagoon, attainable affordable housing for future generations. Next council must move forward with Short-term rentals.

An organization review of the Municipality under the new CAO has filled positions in planning, bylaw, building inspection to name a few. We must

ensure applications are fast-tracked, and we continue to provide the services our residents expect.

The Ts'uubaa-asatx Nation and current council & town staff have built a strong respectful relationship built on listening, learning.

Lake Cowichan is growing and we are seeing record breaking seasonal tourism each year. Council must advocate and work with our local businesses during off season tourism. Winters are hard (Shop Local)

I don't make campaign promises I can't deliver, 'BUT I PROMISE THIS'

To listen to your concerns, and work hard on your behalf.

I'm approachable, fiscally responsible, hard-working

Lake Cowichan is home and I'm ready to work hard on your behalf.

Thank you

Kristine Sandhu

Current Councillor Town of Lake Cowichan
